# Financial Statements Bulletin 2022

PHM Group Holding Oyj (3123811-8)

1 JANUARY – 31 DECEMBER 2022

# Financial Statements Bulletin 2022

## Fourth quarter highlights

- Reported revenue increased by 35% to 144.2 MEUR (106.7)
- Reported EBITDA increased 33% to 18.4 MEUR (13.9)
- LFL revenue increased by 3% to 144.9 MEUR (140.5)
- LFL adjusted EBITDA increased by 1% to 21.1 MEUR (21.0)
- Leverage amounted to 4.82x

## January – December highlights

- Reported revenue increased by 33% to 483.3 MEUR (364.2)
- Reported EBITDA increased 26% to 72.0 MEUR (57.0)
- LFL revenue increased by 5% to 550.1 MEUR (523.9)
- LFL adjusted EBITDA increased by 1% to 86.5 MEUR (85.4)
- Profit for the period amounted to 13.3 MEUR (-4.8)
- Operating cash flow before acquisitions increased by 26% to 53.0 MEUR (42.0)

## Significant events during the quarter

- Entry to the German market by acquisition of Schultz Gruppe, a property service company operating in Northern Germany with its seat in Hamburg
- Seven acquisitions in total completed during Q4 2022 with total annual sales of 51.9 MEUR.
- Demand for services remained at a good level and operations in general remain relatively mildly impacted by the war in Ukraine
- Result supported by price increases but was negatively impacted by lower volume and weaker sales mix of additional sales, fuel price inflation and continued increased sickness related absenteeism
- Issue of new senior secured floating rate notes in a nominal amount of EUR 70 million under a new framework of EUR 200 million completed
- Execution of Corporate Responsibility Strategy and implementation of corporate governance policies continued well

\*) LFL = Like-for-like, financials adjusted to reflect full 12 months of all entities owned at the end of the period

\*\*\*) EBITDA + change in NWC (excluding intra group liability to ultimate parent) – CAPEX (excluding acquisition capex)

\*\*\*\*) EBITDA / Operating cash flow before acquisitions

\*\*\*\*\*) Interest bearing net debt / (LFL LTM adjusted EBITDA + run rate synergies). Run rate synergies per 31.12.2022 amounted to 1.0 MEUR (31.12.2021: 1.2 MEUR).

# Management review

During the fourth quarter, PHM continued executing its strategy of growth both through M&A and organically, as well as improving the operational performance of the acquired businesses. A significant growth leap was taken by acquiring German Schultz Gruppe, an owner-managed company offering a wide range of property services in Northern Germany to a wide range of clients. The acquisition is strategically important to the Group as it opens a new market with significant growth opportunities and enables the continuing execution of the Group's strategy and diversification of the geographical risk of the Group.

Operationally, both like-for-like revenue and like-for-like adjusted EBITDA grew by 3% to 144.9 MEUR and 1% to 21.1 MEUR respectively. The result was supported by price increases and growth of customer base but offset by weaker margin sales mix of additional sales, lower demand for technical and other nonessential services and increased fuel and energy costs. Weakening Swedish Crown also impacted the result by 0.4 MEUR during the quarter.

During the quarter PHM continued to develop its business by completing seven acquisitions, of which the most significant was the acquisition of German Schultz Gruppe. The Group also significantly increased its size in Norway with five acquisitions in different geographical areas. Furthermore, the Group completed one add-on acquisition in Finland. Development and implementation of corporate governance policies progressed well as training of personnel for ethical business conduct continued. A Nordic PHM Climate Working Group was also established to drive the Group's agenda of becoming carbon neutral in 2035 and develop new sustainable business models.

As a local service business, PHM's business continued to show a relatively mild impact from the war in Ukraine due to its limited direct exposure to the crisis. The main impacts from the crisis continue to be the increased fuel and energy prices as well as the general price inflation, which the Group has succeeded fairly well in passing on to its own sales prices. Heavy snowfall in December shifted the Groups resources for additional sales towards weaker margin sales which together with the elevated sickness related absenteeism had an impact on the Group's ability to capitalize on add on sales opportunities, as well as increased the Group's operating costs. This in particular offset the impact of price increases that the Group has been able to pass through.

The war in Ukraine has so far not materially impacted the demand for the Group's services. Contract sales has remained unaffected and the demand for add on services has continued largely in line with previous years, albeit demand for some technical and other nonessential services showed a slight weakening during the quarter. The Group has taken active measures to abide by the sanctions imposed against Russia and ensure that its employees are treated equally regardless of their nationality or background. Although the war in Ukraine has no direct impact on PHM's operations, as all other companies, PHM is not isolated from the indirect effects of the war such as increased price inflation and general economic uncertainty. The Group's good pricing power enables it to pass on price inflation relatively effectively to customers, but high inflation rates may temporarily impact the Group's margins. Also, the generally rising cost of living and financing costs might postpone some nonessential maintenance and improvement work and therefore impact the business in the short-term.

In the long term, PHM sees that more focus is put on improving the energy efficiency of real estate and providing energy efficient solutions to residents and tenants, which will create opportunities for the Group. The technical services and other on demand work that was already postponed due to the Covid-19 pandemic is expected to provide further opportunities in the short to mid-term depending on the development of the general economy. Long-term market trends such as continuing urbanization, ageing

building stock and interest towards upgrading homes and residential buildings also support the growth of the underlying market.

During Q4/22 the Group took measures to secure financing for future acquisitions and continuation of its growth strategy. The Group increased its Senior Secured Revolving Credit Facility by 12.5 MEUR to 62.5 MEUR. The increase is agreed for 12 months and is in-line with the terms set out in the current financing agreements. Furthermore, new euro-denominated senior secured floating rate notes in a nominal amount of EUR 70 million under a framework of EUR 200 million were issued. Despite challenging conditions in the financial markets the demand for the issue was good, showing the markets conviction towards the Groups strategy and strong resilience of its operations.

During the review period (1-12/2022) in February, PHM Group has also completed a tap issue of its senior secured fixed rate notes in the nominal amount of 40 MEUR under the existing 450 MEUR notes' framework. Demand for the issue was good. The Group also completed the listing of the fixed rate Bonds to Nasdaq Helsinki in June as planned.

## Mergers and Acquisitions

In the fourth quarter of 2022 M&A activity continued to be on a good level. The Group succeeded in entering the German market as well as significantly increasing the size of its Norwegian business by a total of five add on acquisitions. In total, the Group made seven acquisitions that had a 51.9 MEUR positive impact on LTM like-for-like revenue and 6.9 MEUR positive impact on LTM like-for-like adjusted EBITDA, respectively.

In Germany, the Group made a platform acquisition by purchasing Schultz Gruppe, an owner-managed property service company serving a wide range of commercial, industrial and residential properties, offering cleaning and maintenance services, technical maintenance services and building management services in Northern Germany. In Norway, the Group's most sizeable acquisition in Q4/22 was PBT Gruppen, a full-service property maintenance company operating in Vestfold & Telemark and Greater Oslo areas. Additionally in Norway, add-on acquisitions were made in both Oslo and Trondheim, and operations were expanded to the Halden area by acquisition of Rokke Hageservice AS. In Finland, Totopro Oy was acquired to strengthen the Group's existing operations in Lahti.

\*) Presented financials are based on latest available audited financial statements

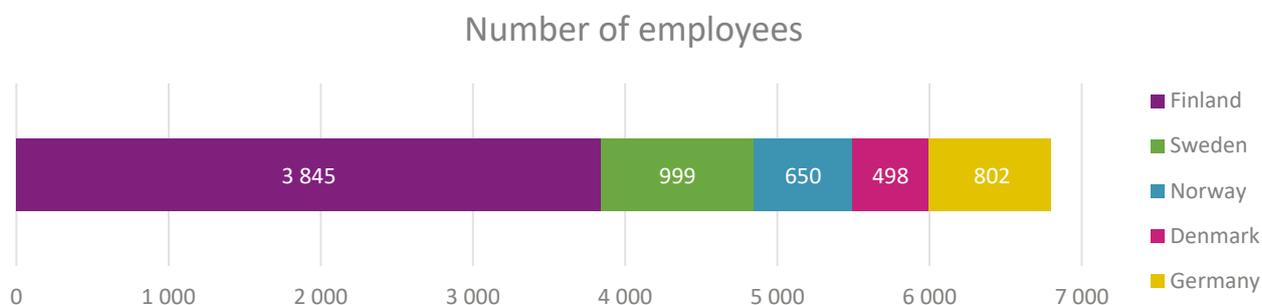

\*\*\*) Asset purchase

\*\*\*\*) Unofficial consolidation of group entities

At the end of the review period, the Group had several ongoing negotiations of which some have been closed and others are expected to close during Q1 2023.

## Corporate responsibility and sustainability

During 2022, the PHM Group companies employed 6,794 people (LFL) on average across the five countries where the Group operates. Adjusted for the time the companies have been part of PHM Group the average number of employees was 5,615. Like-for-like personnel expenses adjusted for non-recurring items in January - December totaled 258.2 MEUR (247.4). Reported personnel expenses totaled 225.6 MEUR million (168.0).

In the last quarter of 2022, PHM Group continued to execute its Corporate Responsibility Strategy as planned. The company proceeded with Code of Conduct and policy trainings for top management, middle management, and other key personnel in Finland. Next, PHM Group is planning to accelerate Code of Conduct and policy trainings as well as HSE (Health, Safety and Environment) harmonizing measures in Sweden and Norway in 2023. PHM Group continued internal HSE audits in Finland. In the end of 2022, PHM Group updated its Safety and Security Strategy and targets, as well as developed work safety reporting. A Nordic PHM Climate Working Group started its work in the end of 2022 to drive the Group's agenda of becoming carbon neutral in 2035 and to develop new sustainable business models. In Q4, PHM Group also continued to develop its corporate responsibility reporting in preparation to financial year 2022 reporting.

## Financial review

### October-December

The Group's reported revenue was 144.2 MEUR (106.7) in Q4 2022. The business scale has continued to increase compared to the comparison period as the Group has completed several sizeable add on acquisitions during 2021 and 2022 explaining a large part of the growth year on year.

The Group's adjusted EBITDA was 21.1 MEUR (16.2) in Q4 2022. The increase in adjusted EBITDA is largely explained by the difference in scale of operations explained above. The large non-recurring expenses recorded in Q4/22 mainly relate to advisory costs for the market expansion into Germany.

The Group's result for the financial period amounted to 8.2 MEUR (-7.5). During Q4/22 the Group redefined the depreciation methods for machinery and equipment in its Finnish subsidiaries to better match the useful life of the assets. The change in depreciation method for the fiscal year 2022 was booked in its entirety to Q4/22 having a positive impact of 4.8 MEUR on depreciation. In the like-for-like figures the change in depreciation method has been accrued to the periods January-September. In addition to operating costs the result is impacted by amortization of customer and brand related intangible assets from acquisitions made and amortization of other long-term expenditure totaling -4.2 MEUR (-3.6 MEUR) as well as financing costs amounting to -6.3 MEUR (-8.0). In addition to interest paid, net financial expenses include, among others, financing related advisory costs for the newly issued Senior Secured Floating rate notes and realized translation differences.

The Group's LFL revenue was 144.9 MEUR (140.4). LFL revenue is calculated by adjusting for the revenue of acquired entities for the time when they have not been a part of the group. LFL revenue increase was driven by price increases and increased contract customer base in all countries and increased additional sales in Finland and Denmark. In Sweden, Norway and Germany additional sales decreased due to lower demand for technical and other nonessential services.

The Group's LFL adjusted EBITDA was 21.1 MEUR (21.0). LFL Adjusted EBITDA was supported by the increased sales and improved operational efficiency but weakened by higher personnel costs and higher fuel and energy prices. The personnel cost increase is largely attributable to inhousing of services provided, overtime pay for snow clearance activities in Finland and high sick-leave rates. Consequently, adjusted EBITDA margin weakened by 0.4 pp. from the comparison period. At comparable exchange rates LFL adjusted EBITDA increased by 3% amounting to 21.6 MEUR

The Group's operating cash flow before acquisitions and financial items increased to 13.9 MEUR (10.1). Operating cash flow was supported by strong EBITDA and release of working capital but offset by high investments into tangible and intangible assets amounting to 9.0 MEUR. The investments comprise mainly of acquisitions of machinery and equipment and the unusually high amount is explained both by investment needed to serve the growing customer base, but also by delay of machinery deliveries that were ordered earlier during the current fiscal year and in late 2021. The operating cash flow excludes the intra group cash pool debt to the Group's ultimate parent PHM Group Topco Oy. Compared to the corresponding period of the previous year, the positive cash flow development is mainly attributable to higher EBITDA and release of working capital but offset by the unusually high level of investments into tangible and intangible assets. At the end of the period interest-bearing net debt was 421.8 MEUR and leverage was at 4.82x. The liquidity of the Group is strong as cash and cash equivalents at the end of the review period was 31.6 MEUR and 62 MEUR of the Super Senior RCF was undrawn.

### *January-December*

The Group's reported revenue was 483.3 MEUR (364.2) in 2022. The business scale has increased materially compared to the comparison period as the Group has completed several sizeable add on acquisitions during 2021 and 2022 explaining a large part of the growth year on year.

The Group's adjusted EBITDA was 78.2 MEUR (62.8) in 2022. The increase in adjusted EBITDA is largely explained by the difference in scale of operations explained above.

The Group's result for the financial period amounted to 13.3 MEUR (-4.8). During Q4/22 the Group redefined the depreciation methods for machinery and equipment in its Finnish subsidiaries. The change in depreciation method for the fiscal year 2022 was booked in its entirety to Q4/22 having a positive impact of 4.8 MEUR on depreciation during the quarter. In the like-for-like figures the change in depreciation method has been accrued to the periods January-September. In addition to operating costs the result is impacted by amortization of customer and brand related intangible assets from acquisitions made and amortization of other long-term expenditure totaling -13.6 MEUR (-12.1 MEUR) as well as financing costs amounting to -22.3 MEUR (-22.0). In addition to interest paid, net financial expenses include, among others, financing related advisory costs and realized translation differences. During the review period, PHM Group defined the treatment of Group internal financing arrangements according to IAS 21, whereby the loans to foreign subsidiaries are treated as net investments and the unrealized translation differences as such are reported as part of the comprehensive income statement and no longer part of financing costs in the consolidated income statement. The effect of the reclassification was 5.7 MEUR. The unrealized translation differences for the year 2021 are not restated as the amounts are deemed immaterial.

The Group's LFL revenue increased by 5% to 550.1 MEUR (523.9). LFL revenue is calculated by adjusting for the revenue of acquired entities for the time when they have not been a part of the group. At comparable exchange rates, LFL revenue increased 6%. LFL revenue increase was driven by an active winter season in Finland, price increases and increased contract customer base in all countries as well as increased technical service revenue in Germany. Finland accounted for approximately 53% (52%) of LFL revenue, Sweden for 24% (26%), Norway for 10% (10%), Denmark for 6% (6%) and Germany for 6% (6%). LFL revenue increased in all countries except Sweden as the impact of exchange rate fluctuations of -6.4 MEUR was attributable almost exclusively to the weakening of the Swedish Crown. At comparable exchange rates the revenue increased also in Sweden.

The Group's LFL adjusted EBITDA was 86.5 MEUR (85.4). At comparable FX rates LFL adjusted EBITDA grew by 2% amounting to 87.3 MEUR. Adjusted EBITDA was supported by the increased sales and price increases made, albeit with a slightly weaker margin primarily due to sales mix as resources were focused on lower-margin snow clearance and clean-up activities in the first half of the year and Q4/22 instead of other additional sales. Additionally, LFL adjusted EBITDA was adversely impacted by high sick leave rates and resulting higher overtime and subcontracting within fixed contracts. Increased fuel and energy prices further impacted the Group's result. Consequently, adjusted EBITDA margin weakened by 0.6 pp. from the comparison period.

The Group's operating cash flow before acquisitions and financial items was strong amounting to 53.0 MEUR (42.0). Operating cash flow was supported by strong EBITDA but offset by investments into tangible and intangible assets. Working capital development during the fiscal year had a slight negative impact on operating cash flow as trade receivables grew faster than trade payable. The operating cash flow excludes the intra group cash pool debt to the Group's ultimate parent PHM Group Topco Oy. Investments into tangible and intangible assets amounted to 17.4 MEUR (12.3) comprising mainly of acquisitions of machinery and equipment. Investments were high due to postponed deliveries from 2021 as well as growth investments made due to new contracts won.

## Events after the review period

After the review period the Group has completed one acquisition in Finland, one in Denmark and two in Sweden.

# Declaration of the board

We confirm that, to the best of our knowledge, the consolidated financial statements give a true and fair view of the Group's assets, liabilities, financial position and results of operations for the period. We also confirm, to the best of our knowledge, that the management review includes a fair review of important events that have occurred during 2022.

Helsinki, 13 February, 2023

Ville Rantala  
CEO

Karl Svozilik  
Chairman of the Board

# Notes to the financial statements bulletin

## Accounting principles

### 1. Reporting Entity

PHM Group Holding Oyj ("PHM" or "Group") is a limited company incorporated and domiciled in Finland. The shares of PHM Group Holding Oyj are not publicly listed. The registered office is located in Helsinki, Uusimaa, Finland.

These condensed interim financial statements for 2022 comprise the Company and its subsidiaries (together referred to as the 'Group'). PHM Group Holding Oyj is consolidated into PHM Group TopCo Oy. The ultimate parent of this Group is PHM Group TopCo Oy.

### 2. Accounting Principles

The Group's financial statements bulletin 2022 has been prepared in line with IAS 34, 'Interim Financial Reporting' and should be read in conjunction with the Group's financial statements for 2021, published on May 2022. The Group has applied the same accounting principles in the preparation of this Interim Report as in its Financial Statements for 2021. The information presented in this Interim Report has not been audited.

### 3. Seasonality

The Group operates in an industry where there are no significant seasonal changes and as such revenue and profit are generated evenly throughout the year.

### 4. Segment reporting

PHM reports its business operations as one segment, which is in line with the internal reporting delivered to the chief operating decision maker. The chief operating decision maker of PHM is the board of directors and the management group.

Since PHM is managed as one segment by the chief operating decision maker and the management reporting only consist of Group level reporting, PHM only has one operating segment.

### 5. Revenue

The Group is in the business of providing property maintenance and additional technical services. In addition, PHM provides short-term refurbishment projects. The maintenance services have similar financial characteristics and are also similar in terms of nature of service production processes, type of customer, and methods used in service distribution.

PHM's customer contracts include mainly property maintenance and technical services. PHM recognises revenue from the property maintenance services over time as the services are rendered. The property maintenance services are invoiced monthly based on services rendered. The additional services are invoiced separately based on hourly fees and the revenue is recognised accordingly over time when services are rendered.

In addition to property maintenance services, PHM provides short-term projects, e.g. sauna and playground refurbishments. The short-term projects typically last for 1-6 months in all operating countries. PHM periodises the revenue of short-term projects for each month work has been performed and thus, recognises revenue over time. The revenue from the short-term projects has not been significant during the conversion period.

Rendering of services may include variable consideration e.g. discounts, penalties for delay and customer claims. If the consideration in a contract includes a variable amount, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

PHM's contracts with customers do not include significant variable considerations.

## 6. Intangible Assets

PHM's intangible assets arise from separately acquired or developed intangible assets. Separately acquired intangible assets are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is measured at fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are recorded as expenses and the expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit or loss in the expense category that is consistent with the function of the intangible assets.

In PHM the useful lives of customer related intangible assets are 10 and 12 years and marketing related intangible assets 15 years.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. PHM does not have any intangible assets with indefinite life.

## 7. Goodwill

Goodwill arises from the business combinations, and it corresponds to the amount that the consideration transferred exceeds the fair value of identifiable net assets as of the acquisition date. Goodwill from business combinations is allocated for impairment testing to the cash generating unit that is expected to gain benefit from the synergies created by the business combination.

Goodwill is reviewed for impairment annually or whenever events or changes in circumstances indicate to a possible impairment. The carrying amount of the cash-generating unit (CGU) including goodwill is compared to the recoverable amount which is the higher of the fair value less costs of disposal or the value in use. Possible impairment is recognised as an expense in the statement of profit and loss with immediate effect, and it will not be reversed later.

If the recoverable amount of an asset is less than its carrying amount, the impairment loss is recorded so that the carrying amount of the asset is equal to its recoverable amount.
